### INDEPENDENT AUDITOR'S REPORT

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority"), a discrete component unit of the City of Jacksonville, Florida, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Authority, as of September 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, and the other post-employment benefits and pension schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Schedule of Expenditures of Federal Awards and State Financial Assistance, is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and Chapter 10.550, Rules of the Auditor General, and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and State Financial Assistance, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and State Financial Assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2021 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

April 29, 2021 Melbourne, Florida Berman Hopkins Wright & LaHam CPAs and Associates, LLP

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

### **September 30, 2020**

This discussion and analysis is designed to provide insight into the Jacksonville Transportation Authority's (the "JTA" or the "Authority") annual financial report by discussing significant financial issues and changes in financial position based on currently known facts in order to better explain material changes in the Authority's financial position and performance during the Fiscal Year ended September 30, 2020 as compared to September 30, 2019.

The information contained herein is designed to assist the reader in assessing the Authority's financial position. We encourage readers to consider the information contained in this discussion in conjunction with all of the other sections of the Authority's financial statements.

### **Financial Highlights**

The financial highlights section will serve as background in understanding the more detailed explanations that follow:

- The Authority's total net position of combined governmental and business type activities on the Statement of Net Position was \$300.9 million, which consisted of net investment in capital assets of \$288.1 million and an unrestricted net position of \$12.8 million.
- The Authority's spending in federal and state expenditures in FY20 supports the Authority's mission to improve Northeast Florida's economy, environment and quality of life by providing safe, reliable, efficient and sustainable multimodal transportation services and facilities. The spending was primarily attributable to the following initiatives:
  - Investments in various Bus Rapid Transit (BRT) corridors, including CNG Buses, with technology to support real-time bus arrival information, related construction and infrastructure including transit signal priority and branded (First Coast Flyer) stations.
  - Support of the Authority's fleet replacement plan with new bus purchases.
  - Continual landside and marine infrastructure improvements for the St. Johns River Ferry including vessel haul out.
  - The Authority's administrative offices and Northeast Florida's new regional mobility hub, the Jacksonville. Regional Transportation Center (JRTC).
- Total capital assets net of accumulated depreciation, including custodial projects, increased from \$377.0 million in 2019 to \$420.9 million in 2020, an increase of 12%. The increase in capital assets was primarily due to an increase in construction in progress for the Authority's previously mentioned major project initiatives.

### **Overview of the Financial Statements**

This discussion is to introduce the Authority's basic financial statements. The basic financial statements are comprised of three components: government-wide statements, fund financial statements, and notes to the financial statements.

### **Overview of the Financial Statements (continued)**

The government-wide financial statements are the first two statements that focus on the Authority as a whole and provide both long-term and short-term information about the Authority's overall financial condition. These statements provide readers with a broad view of the Authority's finances, similar to a private sector business.

The fund financial statements are the remaining statements. They are similar to traditional governmental financial statements. These statements report on individual parts of the Authority's operations and include more detail than the government-wide statements.

### **Government-wide Financial Statements**

The government-wide statements report on the Authority as a whole using accounting rules very similar to those used by private companies. There are two government-wide statements. The first is the statement of net position, which combines and reports all of the Authority's assets and deferred outflows of resources and liabilities and deferred inflows of resources. The second is the statement of activities. It combines and reports all of the Authority's revenues and expenses regardless of when cash is paid or received. These two financial statements demonstrate how the Authority's net position has changed. Net position is the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources and is one way of assessing the Authority's current financial condition. Increases or decreases in net position are good indicators of whether the Authority's financial health is improving or deteriorating over time. Other non-financial factors, such as changes in local economic conditions, regulations, and government legislation, are important in evaluating the Authority's overall financial condition.

The government-wide financial statements are grouped into two categories:

**Governmental activities**: Include road construction and general engineering administration.

**Business-type activities**: The Authority's Bus, Automated Skyway Express (the "ASE"), Community Transportation Coordinator (the "CTC"), and Ferry (the "Ferry") operations are classified here. In these activities, the Authority charges customers fees to cover a portion of the cost of providing these goods and services.

### **Fund Financial Statements**

The Authority's fund statements report in greater detail than the government-wide statements on the Authority's most significant funds. A fund is a group of related accounts used to exercise control over specific resources set apart for specific activities. The Authority, like other state and local governments, uses funds to ensure and demonstrate compliance with financial requirements imposed by law, bond covenants, and local administrative and legislative actions. The Authority maintains several individual governmental funds. The General Fund, Special Revenue Fund, and the Capital Projects Fund are presented separately in the governmental fund balance sheet and in the statement of revenues, expenditures, and changes in fund balances. In addition, the Authority maintains several individual proprietary funds. The Bus, Skyway (the "ASE"), Connexion (the "CTC"), and Ferry (the "Ferry") are presented separately in the proprietary fund statement of net position and in the statement of revenues, expenses, and changes in fund net position.

### Fund Financial Statements (continued)

All of the Authority's funds are classified in one of the following categories.

Governmental funds tell how basic governmental services were paid for in the short-term as well as what remains for near future spending. These funds account for essentially the same services as those reported as governmental activities in the government-wide statements.

Because the governmental fund view does not include the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances that explains the differences between the two views.

Proprietary funds report on business type operations such as Bus, ASE, CTC, and Ferry, where the fees typically cover a portion of the costs of operations. These statements offer both long and short-term financial information. The Authority's enterprise funds, one type of proprietary fund, are a more detailed reporting of the amounts classified as business-type activities in the government-wide statements.

#### **Notes to the Financial Statements**

The notes provide additional information and explanation that is necessary for a full understanding of both the government-wide and fund statements.

### **Government-wide Financial Analysis**

Our analysis of the Authority's financial statements begins below. The statement of net position and the statement of activities, in summary format, follow. These two statements report the net position, the difference between assets and liabilities, as one way to measure financial health. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other non-financial factors such as changes in economic conditions, population growth, regulation, and new government legislation.

To begin our analysis, a summary of the Authority's statement of net position is presented in Table A-1.

Table A-1
Condensed Statement of Net Position

	Governmen	tal Activities	Business-Ty	pe Activities	Total			
	2020	2019	2020	2019	2020	2019

#### Statement of Net Position 2020 vs. 2019

The Authority's governmental activities show an increase of \$13.9 million or (4.65%) in total assets from 2019. Included in governmental activities are custodial projects which represent the sum total of planning, design and construction of assets that are built for others. In FY 2020, the change in total assets is attributable to an increase in project activity including the First Coast Flyer (Bus Rapid Transit) and JTA MobilityWorks programs.

Total liabilities for governmental activities decreased by \$3.1 million or 1.1%. The decrease was mainly due to a reduction in the Authority's revenue bonds payable of \$4.1 million for the current year debt payment in addition to a decrease accounts payable of \$2.1 million due mainly to a reduction in capital project activity which was offset by an increase of \$4.7 million in the Authority's pension liability.

Total assets for the Authority's business type activities increased by \$47.2 million or 16.5% compared to 2019. This is due mainly to an increase in receivables related to Coronavirus Response and Relief Supplemental Appropriations Act ("CRRSAA") funding received after year end, additional construction and set up of the Jacksonville Regional Transportation Center, and the International Bus Terminal as well as bus purchases during the year.

Total liabilities for business type activities increased by \$22.4 million or 38.6% compared to 2019, primarily due to an increase in intercompany balances.

A condensed summary of the Authority's revenues and expenses follows in Table A-2. While the Statement of Net Position shows the change in financial position, the Statement of Activities provides answers as to the nature and source of these changes.

Table A-2

### Statement of Activities 2020 vs. 2019

For the Governmental activities, revenues decreased by \$4.44 million or 12.6% from the prior year. The decrease is primarily attributable to reduced local assistance of \$4.76 million for the JTA MobilityWorks program.

Expenses for Governmental activities decreased by \$41.49 million or 83.2% compared to the previous year from \$49.9 million in 2019 to \$8.5 million in 2020. The decreased expenditures for transportation and infrastructure project was the primary contributor to the decrease in 2020 as compared to 2019. This decrease was due to the treatment of additional construction in progress related to the custodial assets.

Deferred items for the Governmental activities increased for deferred outflows by \$1.14 million due to the Authority's pension and Other post-employment benefits and decreased in deferred inflows by \$4.16 million primarily from a reduction in unavailable revenues from the City of Jacksonville Fare Share program.

### Statement of Activities 2020 vs. 2019 (continued)

Total revenues for Business-type activities increased by \$20.91 million or 14.44%. The increased revenue is primarily due to an increase in CARES act funding of \$26.5 million and intergovernmental revenue offset by a decrease of \$5.5 million in program revenues due to ridership decline from COVID-19.

Expenses for Business-type activities increased by \$2.41 million or 1.66%. The increased expenses is attributable to increased operating expenses for the Authority's Bus operations.

### **Financial Analysis of the Authority's Funds**

### General Fund Budgetary Highlights

Of the Jacksonville Transportation Authority's Government Funds, the General Fund is the primary fund. Investment earnings final budget revenues were higher by \$712K or 125% as compared to the original budget. Total sales tax revenue for the general fund was budgeted at \$2.03 million and there was no variance between intergovernmental revenue as compared to the final budget.

General Government Expenditures for the general fund were budgeted (final) at \$3.42 million; the actual amount of expenditures was \$3.38 million. The General Fund expenditures were favorable by \$48K or 1% compared to the final budget, primarily due to decreased expenditures in general government.

### **Capital Assets and Debt Administration**

### **Capital Assets**

At the end of Fiscal Year 2020, the Authority showed \$420.9 million in total for the governmental and business-type activities Land, Buildings, Vehicles, Equipment and construction in progress as shown in Table A-3. Government activities increase be \$23.18 million primarily due to increases in custodial asset construction in process. Business type activities increased by \$20.76 million due to increases of \$30.55 million in construction in process for the Regional Transportation Center.

### **Debt Administration**

In January 2015, the Authority issued \$97,485,000 in local option gas tax revenue bonds, Series 2015. The bonds are used to: (i) finance expenditures relating to the cost of transportation projects identified in the Authority's mobility program, and (ii) fund a debt service reserve. The Series 2015 issue has a final maturity of 2036. The outstanding bond balance as of September 30, 2019 was \$84,600,000. Interest rates range from 3% to 5%. The revenues of the local option gas tax have been pledged as collateral and the payments of the bonds are insured with a municipal bond issue insurance policy. The approximate amount of the pledge is equal to the remaining principal and interest of \$124,896,750. During 2020, \$17,355,248 of local option gas tax revenue was recognized and \$8,184,155 was paid for debt service and fees.

In July 2019, the Authority entered into a note agreement with Regions bank for \$2,600,000 at an interest rate of 2.18%. The first payment on the note is on June 1, 2020 and the note is due June 1, 2026. The outstanding balance of the note as of September 30, 2020 is \$2,277,894 which includes the current portion of \$359,479.

### **Next Year's Budget**

The Jacksonville Transportation Authority's FY21 operating and capital budgets are balanced and support the goals and objectives of the JTA's strategic plan, the Blueprint for Transportation Excellence. This was evident as we focused on the safety and security of our passengers and employees through the COVID-19 pandemic.

The FY21 operating budget was reduced by 2.0% overall versus the FY20 budget. To ensure the operating efficiency and focus on safety, the JTA restricted employee travel and reduced bus operating schedules and routes, offset by increased cleaning/sanitizing on buses, stations and bus stops. With the economic aid from the Coronavirus Aid, Relief, and Economic Security Act or, CARES Act we were able to balance our expenses due to the decrease in anticipated sales tax and passenger fare revenues.

### **Requests for Information**

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest therein. Questions concerning any of the information provided in this report or requests for additional information may be addressed to, Finance Department, Jacksonville Transportation Authority, 100 LaVilla Center Drive, Jacksonville, FL 32204.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Net change in fund balances, total governmental funds	\$ (3,955,941)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures.  However, in the statement of activities the costs of those	
assets are allocated over their estimated useful lives and	
reported as depreciation expense:	
Current year capital outlay	23,760,204
Current year depreciation expense	(4,299)
Proceeds on sale of land	(10,099,500)
Gain on sale of land	9,524,755
Changes in the net pension liability and other post employement benefits (OPEB) are not reported in the governmental funds because it does not require the use of current financial resources. These balances are reported in the government wide financial statements with the associated deferred inflows and outflows:  Pension - expense	(2,772,150)
OPEB - expense	(25,797)
Pension and OPEB required contractual contributions made	1,603,461
Some expenses reported in the statement of activities did not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
Debt service principal payment	3,727,106
Accrued interest	25,898
Amortization of premium on revenue bonds	657,267
Compensated absences	 (157,994)
Change in net position of governmental activities	\$ 22,283,010

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### **NOTE A - REPORTING ENTITY**

Established by the Florida Legislature in 1955, the Jacksonville Transportation Authority (the "JTA" or the "Authority") is a public body and corporate agency of the State of Florida under Chapter 349, Florida Statutes. The Authority is empowered to acquire, construct, operate and lease a mass transit system; it may plan, coordinate and recommend methods and facilities for the parking of vehicles and the movement of pedestrians and vehicular traffic; and it may issue evidences of indebtedness and secure payment thereof by pledge of its revenues.

It is also empowered to construct, improve, operate and lease the Jacksonville Expressway System and improvements thereto, to fix and collect rates, rentals and other charges for the services and facilities of such system; and to secure bonds by a pledge of such revenues and all or part of Duval County gasoline tax and sales tax funds pursuant to a lease-purchase agreement between the Authority and the State of Florida Department of Transportation (the "FDOT"). The FDOT maintains responsibility for the operation of the Expressway System with the exception of certain contract maintenance functions.

In fiscal year 2000, the Authority entered into an Interlocal Agreement ("ILA") with the City of Jacksonville (the "City") for the purpose of constructing the roadway and infrastructure projects of the Better Jacksonville Plan (the "Plan" or "BJP"), as defined in the ILA. Pursuant to this agreement, the Authority pledged its sales tax and the City pledged its Constitutional Gas Tax to the payment of bonds issued by the City to implement the Program (the "Bonds"). The Bonds are an obligation of the City and there is no guarantee by the Authority nor are any of the other Authority's revenues or assets pledged for such bonds except the sales tax. The ILA commenced on October 1, 2000 and continues in effect until all of the Bonds have been duly paid in full or defeased in accordance with their terms (see Note G). The terms of the ILA also requires that the City make available its Local Option Gas Tax to the Authority for the Authority's operation of its mass transit division. Any excess funds calculated pursuant to the terms of the ILA (as amended) will be allocated entirely to the Authority. The Authority may use these funds for any lawful purpose within its operating mission.

The Authority is fiscally dependent on the City under Section 14 of the City Charter through approval of its budget and there is a financial benefit/burden relationship between the two entities. Accordingly, the Authority has been determined to be a component unit of the City under Governmental Accounting Standards Board's ("GASB") applicable guidance. The Authority's governing body has seven members. Three members are appointed by the Governor and confirmed by the Senate; three members are appointed by the City's Mayor and confirmed by the City Council; and the seventh member is the District Two Secretary of the Florida Department of Transportation.

### NOTES TO FINANCIAL STATEMENTS

### For the year ended September 30, 2020

### **NOTE A - REPORTING ENTITY (continued)**

As required by generally accepted accounting principles, these financial statements present the Authority and its component units, entities for which the Authority is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the Authority's operation and so data from these units are combined with data of the primary government.

### Blended component unit

Jacksonville Transit Management, Inc. (the "JTM") is a not for profit, corporate entity responsible for the management of payroll and related benefits for drivers, mechanics and certain other employees who support the enterprise activities of the Authority. The Authority owns all of the stock of JTM, members of JTM's Board of Directors are appointed by the Authority, services are exclusively provided to JTA, and management of the Authority has operational responsibility for the component unit. The activities of JTM are blended with the primary government, the Authority, and are included in the Authority's enterprise funds.

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements include both government-wide and fund level statements. The government-wide statements report on all of the non-fiduciary activities of the Authority. Both the government-wide and fund level statements classify primary activities of the Authority as either governmental activities, which are primarily supported by taxes and intergovernmental revenues, or business-type activities, which are partially supported by user fees and charges.

The government-wide statement of net position reports all assets and liabilities of the Authority, including both long-term assets and long-term debt and other obligations. Net position, the difference between assets, liabilities, and deferred inflows/outflows of resources, are subdivided into three categories: net investment in capital assets, restricted net position; and unrestricted net position. Net position is reported as restricted when constraints are imposed on the use of the amounts either externally by creditors, grantors, contributors, or laws and regulations of other governments, or by law through constitutional provisions or enabling legislation.

The statement of activities reports the degree to which direct expenses of Authority functions are offset by program revenues. Program revenues consist of charges for services, operating grants and contributions and capital grants and contributions. Charges for services refer to amounts received from those who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Direct expenses are those that are clearly identifiable with a specific function or program. The net cost of these programs is funded from general revenues such as taxes, unrestricted intergovernmental revenue and investment earnings.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The fund level statements report on governmental, proprietary and fiduciary activities, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund level financial statements. Since the fund level statements for governmental activities are presented using a different measurement focus and basis of accounting than the government-wide statements' governmental column (as discussed in Note B-1, under Basis of Accounting in this summary of significant accounting policies), a reconciliation is presented on the page following each fund level statement which briefly explains the adjustments necessary to convert the fund level statements into the government-wide governmental column presentations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this is the Bus Fund's payments to the Community Transportation Coordinator (the "CTC") Fund in the amount of \$6,660,090 for services provided to the transportation disadvantaged. Elimination of these charges would distort the direct costs and program revenues reported for these funds.

The Authority's policy is to use restricted resources first, then unrestricted resources, when both are available for use to fund an activity.

**Fund structure:** The Authority's accounts are maintained in accordance with the principles of fund accounting to enable compliance with limitations and restrictions placed on the use of resources available to it. Under fund accounting, individual funds are established for the purpose of carrying on activities or attaining objectives in accordance with specific regulations, restrictions or limitations. Each individual fund is a self-balancing set of accounts recording assets, liabilities, revenues and expenditures/expenses and fund equity. For financial statement presentation, funds with similar characteristics are grouped into generic classifications as required by accounting principles generally accepted in the United States of America. A brief description of the Major Funds follows:

**Governmental funds:** These funds report transactions related to resources received and used for those services traditionally provided by governmental agencies. The following are major governmental funds used by the Authority:

<u>General fund</u>: The General Fund is the general operating fund of the Authority. It is used to account for all financial resources except those required to be accounted for in another fund.

**Special revenue fund:** The Special Revenue Fund receives money from other governmental agencies, primarily the State of Florida (the State) and the City of Jacksonville, to fund major capital improvement projects for those respective governments. Upon completion, ownership of the assets constructed (the accumulated costs of such assets) is transferred to the State or City.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

<u>Capital projects fund</u>: The Capital Projects Fund accounts for and reports resources to be used for the construction of various transportation projects that are not accounted for in the proprietary funds.

In addition to the major governments funds presented above, the Authority has other governmental funds consisting of the remaining non-major funds which is primarily comprised of the Authority's bond activity and restricted funds for specific roadway projects.

**Proprietary funds:** These funds are used to account for the financing of services to the public on a continuing basis with funding provided by Federal and State grants, local sales and fuel taxes and costs recovered partially through user charges. Major proprietary funds include:

<u>Bus</u>: The Bus Fund is used to account for the operation of the Authority's bus services. Operating revenue is provided through Federal and State grants, local sales and fuel taxes and passenger fares.

<u>ASE</u>: The Automated Skyway Express Fund is used to account for the Authority's local train service. Operating revenue is generally provided through passenger fares. During fiscal 2012, the Authority temporarily suspended the passenger fares to study the effect on ridership and the cost to operate the system. This suspension was in effect for all of fiscal 2020. Presently the Authority has not made a determination as to whether the user fees will be reinstated or if the suspension will become permanent.

<u>CTC</u>: The Community Transportation Coordinator Fund is used to account for paratransit service - Connexion; which provides transportation for disabled and for disadvantaged riders. Operating revenue is provided through governmental grants and other sources.

<u>Ferry:</u> The Ferry Fund is used to account for the St. Johns River Ferry which is the Authority's car and passenger ferry service. The Ferry connects Mayport Village and Fort George Island in Northeast Florida.

Proprietary funds distinguish operating revenue and expenses from nonoperating revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the funds' principal ongoing operation.

The principal operating revenues for the Authority's proprietary funds are charges to customers for sales and services. Since the rate structure of these funds is not sufficient to generate revenues to fully fund operating expenses or to fund acquisition, replacement and future expansion of property and equipment, the Authority is compelled to seek contributions-in-aid from local, state and federal sources, which are reported as nonoperating revenues. Operating expenses include direct expenses of providing the goods or services, administrative expenses and depreciation on capital assets. All expenses not meeting this definition are reported as nonoperating expenses.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The following is a summary of the significant accounting policies applicable to the Authority:

### 1. Basis of accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide, proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Intergovernmental revenues, grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider are met. Taxes such as sales and gas taxes are recognized based on the date of the underlying sales transactions.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). Measurable is the amount of the transaction that can be determined, available, and collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Generally, the Authority considers a 90 day availability period for revenue recognition.

Major revenues that are determined to be susceptible to accrual include taxes, intergovernmental revenue when eligibility requirements are met, charges for services and investment income. Taxes such as sales and gas taxes are recognized based on the date of the underlying sales transactions and if received within the Authority's period of availability for governmental funds.

Expenditures of governmental funds are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Expenditures related to pensions and other post-employment benefits (OPEB) are recognized when the Authority has made a decision to fund those obligations with current available resources.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2. Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes bank demand accounts, money market funds and investments with an original maturity of three months or less when purchased.

### 3. Investments

Investments with a maturity date greater than one year from the purchase date are reported at fair value as determined by quoted market prices, and investments with a maturity date less than one year from the purchase date are reported at amortized cost, which approximates fair value.

In accordance with GASB Codification Section I50 *Investments*, the statement requires additional analysis of fair value if the volume or level of activity for an asset or liability has significantly decreased. Section I50 also requires identification of transactions that are not orderly. The statement establishes a hierarchy of inputs to valuation techniques used to measure fair value with three levels.

- ➤ Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs are inputs-other than quoted prices-included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- ➤ Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security. The implementation of this standard does not have a material effect on the Authority's reporting as the fair value measurement is already maintained by the Authority.

The Authority's pricing for investments is within various levels in the fair value hierarchy.

### 4. Accounts receivable and due from other governments

Customer accounts receivable consist of amounts owed from private individuals, organizations or agencies of the government for services. The allowance method is used to account for bad debt expense. All accounts receivable balances are shown net of the allowance for uncollectibles. The allowance is based on management's estimates using historical experience and current economic conditions. The allowance for doubtful accounts was approximately \$534,950 for the Bus fund at September 30, 2020, and all other receivables are considered fully collectible in the other funds. In addition, the Authority has recorded a due from other governments of \$20,844,330, which is considered fully collectible.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 5. Inventory and prepaid items

Inventory consists of materials and supplies and is reported using the average cost method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and proprietary fund statement of net position. In the governmental funds' statement of revenues, expenditures, and changes in fund balances, prepaid items are included in expenditures for the current period, when purchased.

### 6. Custodial assets/custodial liabilities

Custodial assets generally consist of cash, cash equivalents, investments, certain amounts due from the City, and costs of infrastructure assets currently under construction for the benefit of the State and the City. After completion, the City or State as appropriate, is responsible for maintaining the assets. Therefore, the Authority transfers such assets upon completion of the related construction project.

These assets are reported as custodial projects on the government-wide statement of net position because title of such assets does not transfer until the project is completed and accepted by the State or the City, as appropriate.

As these assets are being held in an agency-like capacity by the Authority, the revenues associated with the funding of these projects are reported as custodial projects and represent amounts due to other governments (liabilities) on the government-wide statement of net position, reflecting the Authority's obligation to the State or City.

### 7. Capital assets

Capital assets are stated at historical cost and are defined as assets with an initial individual cost of more than \$3,000 and an estimated useful life exceeding one year.

The cost of improvements and replacements, which extend the useful lives of assets, are capitalized. Repairs and maintenance costs, which do not improve or extend the useful life of the respective assets, are charged to expense. Depreciation commences when the assets are placed in service. Property and equipment are depreciated by the straight-line method over the estimated useful lives of the assets as follows:

	Years
Land improvements	5 - 10
Buildings and improvements	10 - 40
Vehicles	3 - 25
Furniture and office equipment	3 - 12
Other equipment	3 - 10

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 7. Capital assets (continued)

As of September 30, 2020, there were no infrastructure assets owned by the Authority other than the custodial projects being constructed for other parties mentioned in Note E.

### 8. Compensated absences

Employees accrue personal leave, or compensated absences, by prescribed formula based on length of service. All compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements as accrued liabilities. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The value of accumulated benefits earned by employees, that may be used in subsequent years or paid upon termination or retirement, is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends.

### 9. Unearned/unavailable revenues

Payments are recorded as unearned revenue in the government-wide and fund financial statements which have been received but which have not met revenue recognition requirements (not earned). In addition, amounts related to governmental fund receivables that are measurable, but not received within the Authority's period of availability, are recorded as a deferred inflow of resources entitled unavailable revenue in the governmental fund financial statements.

### 10. Claims liability

Provision for injury and damage losses are charged to operations based on the estimated ultimate cost of settling incurred claims and incurred but not reported claims using past experience adjusted for current trends.

### 11. Restricted assets

Certain assets of the Authority's governmental and proprietary funds are classified as restricted assets on the financial statements because their use is limited to the construction of capital assets or custodial projects through bond or loan covenants and other legal restrictions.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 12. Deferred outflows/inflows of resources

Deferred outflows of resources represent a consumption of net position that applies to a future period, and as such will not be recognized as an outflow of resources (expense) until that time. These items are reported as a category below the assets on the Statement of Net Position.

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and as such will not be recognized as an inflow of resources (revenue) until that time. These items are reported as a category below the liabilities on the Statement of Net Position.

The Authority reports deferred outflows and deferred inflows of resources that result from the activity in its defined benefit pension plans and other post-employment benefits. These activities include differences between expected and actual experience, and changes in actuarial assumptions, or other inputs. In addition, the Authority records a deferred inflow in its governmental funds for resources that are not available.

### 13. Hedging activities

The Authority engages in agreements for the pre-purchase of compressed natural gas in order to secure a hedge against price fluctuations. This current position is reflected as a deferred inflow in the amount of \$464,486 as of September 30, 2020, see Note J.

### 14. Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net pension asset, deferred outflows and inflows of resources related to pension/OPEB, and pension/OPEB expenses, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value, see Note K.

### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 15. Net position and fund balances

In the government-wide financial statements and in the proprietary fund statements, net position is classified in the following categories:

**Net investment in capital assets:** This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that is attributable to the acquisition, construction or improvement of these assets, if any, reduce this category.

**Restricted net position:** This category represents the net position of the Authority, which is restricted by creditors, grantors or laws and regulations or legally enforceable enabling legislation which a party external to the Authority (such as citizens, public interest groups, or the judiciary) can compel the Authority to honor.

**Unrestricted net position:** This category represents the net position of the Authority, which is not restricted for any project or other purpose.

Governmental funds report fund balance either as non-spendable or spendable. The spendable balance is further classified as restricted, committed, assigned, or unassigned, based on the extent to which there are external or internal constraints on the spending of these fund balances are as follows:

**Nonspendable fund balance:** Nonspendable fund balances are amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

**Restricted fund balance:** This category represents the fund balance of the Authority, which is restricted by creditors, grantors or laws and regulations or legally enforceable enabling legislation which a party external to the Authority (such as citizens, public interest groups, or the judiciary) can compel the Authority to honor.

**Committed fund balance:** Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the Board of Directors through passage of a resolution. Committed amounts cannot be used for any other purpose unless the Authority removes those constraints by taking the same type of action.

**Assigned fund balance:** Assigned fund balances are amounts that are constrained by the Authority's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by: (a) the Board of Directors or (b) the Chief Executive Officer.

#### **NOTES TO FINANCIAL STATEMENTS**

For the year ended September 30, 2020

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 15. Net position and fund balances (continued)

**Unassigned fund balance:** Unassigned fund balance is the residual classification for the General Fund. Unassigned fund balance also includes any residual deficit fund balance of other governmental funds.

The Authority's policy is to expend resources in the following order: restricted, committed, assigned and unassigned.

## 16. <u>Use of estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions, such as the provisions for uninsured losses and pension costs, that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE C - DEPOSITS AND INVESTMENTS**

#### 1. Deposits

As of September 30, 2020 the Authority's cash balance was \$41,192,011 of which \$20,857,062 is presented as noncurrent. In addition, the pension trust fund reported \$866,755 for cash and cash equivalents for the bank and account balances.

In accordance with GASB Codification Sections C20, Cash Deposits with Financial Institutions, and I50, Investments, the Authority's exposure to risk is disclosed as follows:

Custodial credit risk - deposits: In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority's policy to address custodial credit risk requires the Authority to maintain all deposits in qualified public depositories as defined in Chapter 280.02, Florida Statutes. Deposits whose value exceeds the limits of federal depository insurance are entirely insured or collateralized pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act (the Act). Under this Act, the financial institutions which are qualified as public depositories place with the State Board of Administration, securities which have a market value equal to 50% of the average daily balance for each month of all public deposits in excess of applicable deposit insurance. The Public Deposit Security Trust Funds have a procedure to allocate and recover losses in the event of default or insolvency. When public deposits are made in accordance with Chapter 280, no public depositor shall be liable for any loss thereof.

#### Restricted Cash

As of September 30, 2020, restricted cash consists of:

Bond reserves	\$ 10,135,252
Fair share transfer projects	5,803,697
Capital project reserves	3,045,159
Cash restricted for Acosta bridge repair	 1,872,954
	\$ 20,857,062

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE C - DEPOSITS AND INVESTMENTS (continued)**

#### 2. Investments

The Authority's Board approved its written investment policy on August 28, 2014. The policy complies with Florida Statute 218.415. The investment policy authorizes the following investments: Money market mutual funds, Florida Local Government Surplus Funds Trust Funds, United States Government Securities, United States Government Agencies, interest-bearing time deposits or savings accounts, repurchase agreements, commercial paper of a high rating A-1 P-1 as provided by one of the nationally recognized rating agencies, Standard & Poor's Corporation (S & P) or Moody's, fixed income mutual funds, and intergovernmental investment pools that are authorized pursuant to the Florida Interlocal Cooperative Act. The policy also provides limits on individual issuers and rating requirement standards.

Outside portfolio managers must review the portfolios they manage to ensure compliance with the Authority's diversification guidelines on an ongoing basis.

Investments are recorded at fair value (quoted market price or the best available estimate thereof), with the exception of the investments held by the Florida Treasury Investment Pool. The investments held by the Florida Treasury Investment Pool are recorded at amortized cost, which is consistent with the treatment of "2a-7 like" pool securities.

As of September 30, 2020, the Authority has restricted and unrestricted investments of \$74,417,712, money markets and bank accounts of \$41,192,011, and \$776,695 related to investments for the pension trust. The following is a schedule of investments by type:

	Government-	Pension Trust
Investment Type	wide	Fund
U.S. Treasury bills/notes	\$ 30,617,203	\$ -
Supranational commercial paper	4,390,225	-
Corporate note	13,902,434	315,780
Asset-backed securities	10,264,991	-
Local government investment pool	1,676,125	-
Cash and equivalents	-	866,755
Money market funds	16,807,534	460,915
Total investments	\$ 77,658,512	\$ 1,643,450

#### **NOTES TO FINANCIAL STATEMENTS**

For the year ended September 30, 2020

#### **NOTE C - DEPOSITS AND INVESTMENTS (continued)**

#### 3. Interest rate risk and price level

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of an investment's fair value is to change in market interest rates. The Authority's investment policy limits the investing of current operating funds to investments with maturities of not more than 12 months. Investment maturities for bond reserves, construction funds, and other non-operating funds are limited to 5 years with the weighted average maturity not to exceed 3 years. This policy limits investment maturities as a means of managing the Authority's exposure to fair value losses arising from increasing interest rates.

GASB Codification Section I50 *Investments*, establishes a hierarchy of inputs to valuation techniques used to measure fair value:

- ➤ Level 1 quoted market prices in active markets
- ➤ Level 2 inputs other than quoted market prices that are observable either directly or indirectly
- ➤ Level 3 unobservable inputs

The following table presents the investments as of September 30, 2020. The Authority had the following debt-type investments and maturities measured at fair value. Investments are recorded at fair value quoted market price or the best available estimate thereof. The pricing for investments is shared between levels in the fair value hierarchy.

	Remaining maturity (in years)												
	Less than	1-5	6-10	More than	Fair								
Investment type	1 year	years	years	10 years	value								
U.S. Treasury bills/notes	\$ 16,189,783	\$ 14,427,420	\$ -	\$ -	\$ 30,617,203								
Supranational commercial paper	4,390,225	-	-	-	4,390,225								
Corporate note	-	13,902,434	-	-	13,902,434								
Asset-backed securities	-	10,264,991	-	-	10,264,991								
Local government investment pool	1,676,125				1,676,125								
	\$ 22,256,133	\$ 38,594,845	\$ -	\$ -	\$ 60,850,978								

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE C - DEPOSITS AND INVESTMENTS (continued)**

# 4. Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As a means of limiting its exposure to credit risk, the Authority's policy is to strictly limit its investments in permitted investment vehicles authorized by the policy, which are generally recognized as elements of a conservative investment portfolio that carries minimal credit risk exposure. U.S. Government securities are backed by the full faith and credit of the U.S. Government, therefore a credit rating is not assigned.

The Authority's investments are rated as follows:

	S&P's Credit	
Investment type	Rating	Fair Value
U.S. treasury notes	AA+	\$ 30,617,203
Commercial paper	A-1+	18,292,659
Asset backed securities	AA+	10,264,991
Local government investment pool	AA+	1,676,125
Money market funds	AA+	16,807,534
		\$ 77,658,512

#### 5. Custodial credit risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy requires securities to be held by a third party custodian and be properly designated as an asset of the Authority and held in the Authority's name. As of September 30, 2020, the Authority's investments were held with a third-party custodian as required by the Authority's investment policy.

The investment policy authorizes the following maximum permissible concentrations based on book values: United States Government Securities (100%), United States Government Agencies (80%), interest bearing time deposits or savings accounts (25%), repurchase agreements (25%), commercial paper (25%) of a high rating A-1 P-1 as provided by one of the nationally recognized rating agencies, Standard & Poor's corporation (S & P) or Moody's, fixed income mutual funds (25%), and intergovernmental investment pools (25%) that are authorized pursuant to the Florida Interlocal Cooperative Act.

## NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# **NOTE C - DEPOSITS AND INVESTMENTS (continued)**

# 5. Custodial credit risk (continued)

The policy further allows that 100% of the portfolio can be comprised of any of the following instruments: money market funds, Florida Local Government Surplus Funds Trust Funds, United States Government Securities and Federal Instrumentalities.

Investments that represent more than 5% of the Authority's investments are listed below:

	Fair	% of
Investment types	value	Portfolio
Money market funds	\$ 16,807,534	22%
U.S. Treasury	30,617,203	39%
Corporate note	13,902,434	18%
Commercial paper	4,390,225	6%
	\$ 65,717,396	85%

## **NOTES TO FINANCIAL STATEMENTS**

## For the year ended September 30, 2020

CTC	794,975
Ferry	 873,629
Total depreciation expense	\$ 18,309,827

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE E - CUSTODIAL PROJECTS**

Custodial projects are reported in the governmental activities on the statement of net position. The following is a schedule of changes in custodial construction projects until completion, acceptance and transfer of title. The balances for the year ended September 30, 2020 are as follows:

		Current year	Completed	
	Beginning	project costs/	projects/	Ending
	balance	increases	decreases	balance
Grant capital plan	\$ 40,411,132	\$ 3,051,701	\$ -	\$ 43,462,833
JTA mobility works	68,569,125	20,708,502	<u> </u>	89,277,627
	\$ 108,980,257	\$ 23,760,203	\$ -	\$ 132,740,460

#### **NOTE F - INTERFUND BALANCES AND TRANSFERS**

During the normal course of operations, numerous transactions occur between funds. The following is a schedule of interfund balances at September 30, 2020:

	Receivable Fund:														
		General fund		Special Revenue fund		Capital Projects fund		Bus fund		ASE fund		CTC fund	Ferry fund		Total
Payable Fund:															·
Special revenue fund	\$	3,999,639	\$	-	\$	76,718	\$	-	\$	-	\$	-	\$ -	\$	4,076,357
Capital projects fund		664,541		-		-		7,773,847		27,551		-	29,018		8,494,957
Other government fund		239,988		23,459		1,565,130		5,670		-		-	-		1,834,247
Enterprise fund - Bus		42,751,845		506,625		-		-		683,516		8,939,759	-		52,881,745
Enterprise fund - ASE		9,963,614		-		-		-		-		589,698	-		10,553,312
Enterprise fund - CTC		14,066,297		-		619,963		-		-		-	-		14,686,260
Enterprise fund - Ferry		2,155,316				-		651,019		1,270		11,256			2,818,861
	\$	73,841,240	\$	530,084	\$	2,261,811	\$	8,430,536	\$	712,337	\$	9,540,713	\$ 29,018	\$	95,345,739

As presented on the statement of net position:

Due to (Due From) other funds

\$ 73,736,488 \$ (3,546,273) \$ (6,233,146) \$ (44,373,399) \$ (9,834,078) \$ (5,145,547) \$ (2,789,843)

The outstanding balances between funds result mainly from the time lag between the dates expenses are incurred and payments between funds are made, which are expected to be collected in subsequent years.

## NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# **NOTE F - INTERFUND BALANCES AND TRANSFERS (continued)**

Transfers of net resources from a fund receiving revenue to a fund in which the resources are to be expended are recorded as operating transfers.

						I rans	ters	s to					
	Other Government												
	Gene	ral Fund	(	CTC Fund	F	erry Fund	P	ASE Fund		Funds		Total	
Transfer from													
General fund	\$	-	\$	-	\$	-	\$	-	\$	350,446	\$	350,446

<sup>\*</sup>The beginning balance presented above for custodial projects has been restated from the presentation in the prior year to more accurately reflect the nature of the restricted cash component.

The Authority's net pension balance for its business type activities is shown as a negative balance to indicate a overall net pension asset. This amounts consists of an Salaried pension liability of \$16,789 and a Drivers pension asset of \$5,004,531.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE G - LONG TERM LIABILITIES (continued)**

Local option gas tax revenue bonds

In January 2015, the Authority issued \$97,485,000 in local option gas tax revenue bonds, Series 2015. The bonds are used to: (i) finance expenditures relating to the cost of transportation projects identified in the Authority's mobility program, and (ii) fund a debt service reserve. The Series 2015 issue has a final maturity of 2036. The outstanding bond balance as of September 30, 2020 was \$84,600,000. Interest rates range from 3% to 5%. The revenues of the local option gas tax have been pledged as collateral and the payments of the bonds are insured with a municipal bond issue insurance policy. The approximate amount of the pledge is equal to the remaining principal and interest of \$124,896,750. During 2020, \$17,355,248 of local option gas tax revenue was recognized and \$7,810,250 was paid for debt service and fees.

The Authority recognized two months of accrued interest in the amount of \$705,000 for an interest payment due on February 1, 2021. The next principal payment in the amount of \$3,575,000 is due on August 1, 2021. The current portion of the revenue bonds payable including the current amortization of the bond premium due within one year is \$4,332,971 as presented in the Statement of Net Position for governmental activities.

#### **Debt Maturities**

Years ending September 30:	Principal	Interest	Total
2021	\$ 3,575,000	\$ 4,230,000	\$ 7,805,000
2022	3,755,000	4,051,250	7,806,250
2023	3,945,000	3,863,500	7,808,500

#### **NOTES TO FINANCIAL STATEMENTS**

For the year ended September 30, 2020

#### **NOTE G - LONG TERM LIABILITIES (continued)**

#### Regions note payable

In July 2019, the Authority issued a new general obligation debt in the form of a loan recognized in the governmental funds. The loan is used to finance the expenditures relating to costs for designing, engineering, financing, acquiring, equipping and constructing upgrades to the Acosta Bridge lighting system. The Series 2019 issue has a final maturity of 2026. The outstanding loan balance as of September 30, 2020 was \$2,454,820. During 2020 \$373,905 was paid for debt service and fees. The interest rate is 2.18%. Upon the occurrence of an Event of Default, the principal and interest payments due on the Note shall be accelerated and become immediately due. Any amounts due under the Note or this agreement not paid when due shall bear interest at a default rate equal to the interest rate on the Note plus 6% per annum from and after the date due until paid.

Under the loan documents, \$2,656,680 of the Authority's reserve funds (including earnings) were deposited into a separately designated collateral account with the secured party Regions Capital Advantage Bank as pledged revenue for the loan. At all times during the term of the loan, JTA will maintain on deposit in the collateral account an amount equal to no less than the sum of the outstanding principal of the note, plus the highest annual amount of one year's interest on the note (minimum account balance). The Authority may withdraw amounts from the collateral account as long as the minimum account balance remains on deposit in the account following such withdrawal. No proceeds of the loan shall be permitted to be deposited at any time into the collateral account. As of September 30, 2020 the Authority had a balance of \$2,691,048 in reserve funding.

The Authority recognized three months of accrued interest in the amount of \$16,553 for an interest payment due on December 1, 2020. The first principal payment in the amount of \$359,478 is due on June 1, 2021, representing the current portion of the note payable due within one year as presented in the Statement of Net Position for governmental activities.

#### **Debt Maturities**

Years ending September 30:	Principal		Interest		 Total

#### NOTES TO FINANCIAL STATEMENTS

## For the year ended September 30, 2020

#### **NOTE H - OPERATING LEASE**

On July 28, 2015, the Authority entered into an operating lease for the Church Street premises, an 18-month period expiring on January 31, 2017. On December 20, 2017, a second amendment was executed to further extend the terms of the lease to expire on January 31, 2020. In February 2020, the Authority signed a new lease agreement for the period of March 1, 2020 to February 28, 2021. For the year end September 30, 2020, total rental expense was \$ 58,534.

On July 1, 2014, the Authority entered into a 60 month operating lease for the 121 Atlantic Place expiring on November 30, 2019, with a three-year renewal option. The lease also included a Hold Over provision that dictated the rent rate and increases. The Authority provided a notice of termination with a last date of occupancy in Feb 2020. For the year end September 30, 2020, total rental expenditure was \$326,652.

On October 31, 2018, the Authority entered into 25 year operating lease for premises located on FSCJ's Kent Campus at 3939 Roosevelt Boulevard for transit stop operations with no consideration given. The lease will expire on October 31, 2043. There was no rent expense for the year ended September 30, 2020.

On October 3, 2018, the Authority entered into a 25 year operating lease for premises located at 96076 Lofton Square Court for transit stop operations with no consideration given. The lease will expire on October 2, 2043, with a one period renewal option for a period of up to 25 additional years. There was no rent expense for the year ended September 30, 2020

The future minimum lease payments for these leases are as follows:

					FSCJ	(Kent)		
					Campi	us 3939		
Year Ending			12	21 Atlantic	Roos	sevelt	96076	Lofton

2024		-		-		-		-
2025		-		-		-		-

#### **NOTES TO FINANCIAL STATEMENTS**

## For the year ended September 30, 2020

#### **NOTE I - RISK MANAGEMENT**

The Authority is exposed to various risks of loss related to injury and damage claims arising from operations. The Authority is self-insured for general liability and automobile liability and purchases stop loss insurance which caps the Authority's liability at \$300,000 per claim. Stop loss insurance is limited to \$2 million for product liability (automobile) and \$1 million for personal injury. The Authority purchases commercial insurance for group health insurance, workers compensation and destruction of property.

Claim liabilities include an amount for known claims and claims that have been incurred but not reported (IBNRs) for which a loss is probable. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts and other economic and social factors. The liability is reported in the Enterprise Funds. During fiscal year 2020, individual injury and damage claims in excess of \$200,000 and \$300,000 per occurrence were subject to the Florida Sovereign Immunity Law.

Changes in the estimated liability for the self-insurance program consisted of the following:

			С	urrent year				
			С	laims and				
Fiscal year ended	I	Beginning	С	hanges in		Claims	Ending	
September 30,		balance	estimates		estimates paid		paid	balance
2018	\$	4,238,439	\$	1,556,892	\$	785,326	\$ 5,010,005	
2019	\$	5,010,005	\$	2,119,007	\$	1,561,666	\$ 5,567,346	
2020	\$	5,567,346	\$	1,637,524	\$	1,054,397	\$ 6,150,473	

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE J - COMMITMENTS AND CONTINGENCIES**

**Construction commitments:** The Authority as a whole had construction and construction-related commitments related to the Custodial Projects discussed at Note E amounting to approximately \$132,740,460 at September 30, 2020.

JTA MobilityWorks Program: As of July 29, 2014, the Authority and the City of Jacksonville entered into an interlocal agreement (ILA) for the purpose of constructing roadway projects as defined in the JTA MobilityWorks Program CIP plan. As of the effective date of the ILA, the City of Jacksonville pledged its Duval Authority local option gas tax revenues to pay the debt service on transportation revenue bonds issued by the Authority to fund such roadway projects under the JTA MobilityWorks Program. All such bonds are revenue obligations, secured solely by the Local Option Gas Taxes collected in Duval County, and there is no guarantee by the City or any other Authority revenues or assets pledged for such bonds, see Note G.

**Better Jacksonville Plan:** As of October 1, 2000, the Authority and the City of Jacksonville entered into an ILA for the purpose of constructing roadway projects as defined in the Better Jacksonville Plan. As of the effective date of the ILA, the Authority pledged its Duval County sales tax revenues to pay the debt service on transportation revenue bonds issued by the City of Jacksonville to fund such roadway projects under the Better Jacksonville Plan. All such bonds are revenue obligations, secured solely by the Transportation Discretionary Sales Surtax and Constitutional Gas Taxes collected in Duval County, and there is no guarantee by the Authority nor are any other of the Authority revenues or assets pledged for such bonds, see Note G.

**Grant funding:** Federal and State grant awards are audited in accordance with the requirements of the Uniform Guidance and the Florida Single Audit Act. These grant awards are subject to audit by the respective grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure resources for allowable purposes. Any disallowance resulting for a federal audit may become a liability of the Authority. It is management's opinion that no material liabilities will result from any such grantor audits.

**Union contracts:** At September 30, 2020, the Authority employed a total of 746 employees. The employees covered under union contracts represents 68% or 505 of the Authority's total employees. The Amalgamated Transit Local Union No. 1197 covers bus operators. The three year contract, representing 331 employees, expires December 1, 2022.

The American Federation of State, County and Municipal Employees Florida Council 79, (AFSCME), covers 25 dispatchers and operations supervisors. This three year contract expires May 20, 2022.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE J - COMMITMENTS AND CONTINGENCIES (continued)**

There are 149 mechanics and utility employees who operate under a contract with the International Association of Machinists and Aerospace Workers Union No. 759. The three year contract expired on November 2, 2020 and was renewed on December 2, 2019 through December 1, 2022. Additionally, under the same Union, there are 10 customer service employees that are covered under a separate three year contract which expires December 1, 2022.

**Purchase commitment:** On November 25, 2014 the Authority entered into a 15-year purchase agreement with a third party vendor for compressed natural gas. This agreement was amended on September 30, 2016. The amended agreement requires the purchase of compressed natural gas starting at a rate of \$1.257 per diesel gas equivalent (DGE) and increasing to \$1.346 per DGE. There is a minimum annual volume that must be purchased starting at 126,563 DGEs and increasing to a total of 843,750 DGEs at the end of the 15 year period. The Authority has estimated the 15 year cost of this agreement, based on the minimum purchase requirements, will be approximately \$23.5 million (including infrastructure costs), as compared to a cost of \$28.5 if diesel fuel continued to be used.

On November 16, 2017 the Authority entered into an agreement with a third party supplier for Design-Build services on Kernan Boulevard from Atlantic Boulevard to McCormick Road. This agreement is for the design and construction of the roadway widening project to reconstruct Kernan Boulevard from a four-lane to a six-lane urban roadway between Atlantic Boulevard and Matthew Unger Drive and four lanes from Matthew Unger Drive to McCormick Road. The road will have raised medians, curb and gutter, sidewalks, bike lanes, a 12-foot multi-use path on the eastside of the road and utility improvements. Total compensation under this agreement was \$25,331,205. The Authority has no open invoices but does anticipate close out work.

On March 18, 2019, the Authority entered into a five-year agreement with a third party vendor for U<sup>2</sup>C Technology Integration Consulting Services. This agreement is intended to advance the Authority's goal of Transformative Mobility Solutions by conceptualizing, implementing and developing the autonomous vehicle technology system Ultimate Urban Circulator (U<sup>2</sup>C). The U<sup>2</sup>C will be an integrated autonomous vehicle system in downtown Jacksonville, serving as a circulator and people mover. Consulting services will include developing the U<sup>2</sup>C framework as it pertains to Data, Communications, Cybersecurity and Vehicle Locations Systems. Total compensation under this agreement is \$10,000,000.

On May 24, 2019, the Authority entered into an agreement with a third party supplier for the manufacture of heavy duty buses. This agreement was conducted as a State Schedule for the State of Florida with the guidance of the Florida Department of Transportation. This agreement is instrumental as it gives the ability to any government entity within the State of Florida the opportunity to procure heavy-duty buses in an expeditious manner. This contract set a price for a base bus while including the ability for each entity to add additional options that will provide them a bus that fits their entities individual business model. This is an indefinite delivery, indefinite quantity contract that is effective for two years with three (3) one year options to renew.

## NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS**

**Pension plan of the primary government:** The administrative employees of the Authority participate in the Florida Retirement System (the "FRS") defined benefit pension plan, a cost-sharing multiple-employer public employee retirement system administered by the State of Florida Department of Administration, Division of Retirement, to provide retirement and survivor benefits to participating public employees. Chapter 121, Florida Statutes, establishes the Authority for participant eligibility, contribution requirements, vesting eligibility and benefit provisions.

Benefits are determined by category and length of service and the applicable contribution rates are as follows:

Membership category	Benefit	Vesting	July 1, 2017 Employer contribution rate	July 1, 2018 Employer contribution rate	July 1, 2019 Employer contribution rate	July 1, 2020 Employer contribution rate
Regular	1.6% times years of service times average compensation (8 highest years) if age 65 or 33 years of services at any age.	Choice Pension - after 6 years of creditable service if actively employed on July 1, 2001 or 8 years if initially enrolled on or after July 1, 2011 Investment - after 1 year of creditable service.	7.92%	8.26%	8.47%	10.00%
Senior Management	2.0% times years of service times average compensation (8 highest years) if age 65 or 33 years of services at any age.	Choice Pension - after 6 years of creditable service if actively employed on July 1, 2001 or 8 years if initially enrolled on or after July 1, 2011 Investment - after 1 year of creditable service.	22.71%	24.06%	25.41%	27.29%
Deferred Retirement Option Program (DROP)	Accumulated FRS benefits earn 1.3% effective annual interest compounded monthly for a period up to 60 months after becoming vested, having reached normal retirement date, and remaining employed.	Subject to normal system vesting provision for membership category	13.26%	14.03%	14.60%	16.98%

#### NOTES TO FINANCIAL STATEMENTS

## For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

All of the above employer contribution rates include 1.66% for a post-retirement health insurance subsidy as part of the Health Insurance Subsidy (HIS) Plan. The Regular and Senior Management rates also include .06% for an administrative and educational fee.

Participating employer contributions are based upon actuarially determined state-wide rates established by the State of Florida, that expressed as percentages of annual covered payroll are adequate to accumulate sufficient assets to pay benefits when due. Employee contribution rates are 3% for regular employees and senior management. There is no employee contribution for employees enrolled in DROP.

Contributions to the FRS were \$1,608,743 for the year ended September 30, 2020, which was equal to the required contributions for each year.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida 32399-1560.

## Governmental Accounting Standards Board Statement No. 68

As a participating employer, the Authority applies GASB Statement No. 68, as amended, *Accounting and Financial Reporting for Pensions*, which requires employers participating in cost-sharing multiple employer defined benefit pension plans to report the employers' proportionate share of the net pension liabilities and related pension amounts of the defined benefit pension plans.

# The Florida Retirement System Pension Plan

## Pension Liabilities, Expense, and Deferred Items Related to Pensions:

At September 30, 2020, the Authority reported a net pension liability of \$16,124,803 for its proportionate share of the plan's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The Authority's proportionate share of the net pension liability was based on the Authority's 2019-20 fiscal year contributions relative to the 2019-20 fiscal year contributions of all participating members. At June 30, 2020, the Authority's proportionate share was .03720% of the net pension liability which was .00172% increase from its proportionate share measured as of June 30, 2019.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# **NOTE K - EMPLOYEE BENEFITS (continued)**

#### The Florida Retirement System Pension Plan (continued)

## Pension Liabilities, Expense, and Deferred Items Related to Pensions (continued):

For the fiscal year ended September 30, 2020, the Authority recognized the FRS Plan pension expense of \$2,325,797. In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	Def	erred
	(	Outflow of	Infl	ow of
Description	F	Resources	Resc	ources
Difference between expected and actual experience	\$	617,129	\$	-
Change of assumptions		2,919,102		-
Net difference between projected and actual earnings				
on FRS pension plan investments		960,086		-
Change in proportion and differences between Authority				
FRS contributions and proportional share of contributions		601,135		-
Authority FRS contributions subsequent to the				
measurement date		371,581		-
	\$	5,469,033	\$	

The deferred outflows of resources related to pensions, totaling \$371,581 resulting from Authority contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred
Years ending	Outflows/
September 30:	(inflows), net
2021	\$ 966,729
2022	924,970
2023	910,657
2024	891,843
2025	863,826
Thereafter	539,427

#### **NOTES TO FINANCIAL STATEMENTS**

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### The Florida Retirement System Pension Plan (continued)

<u>Actuarial Assumptions</u>. The total pension liability as of June 30, 2020 was determined using the following actuarial assumptions which were based on certain results of the most recent actuarial experience study completed for July 1, 2013 - June 30, 2018:

Inflation 2.40%

Salary Increases 3.25%, average, including inflation

Investment rate of return 6.80%

Mortality assumptions were based on the PUB-2010 base table, projected generationally with Scale MP-2018. Additional details are provided in the actuarial valuation report.

The long-term expected rate of return assumption of 6.80% used in GASB discount rate calculations consists of two building block components: 1) an inferred real return of 4.3%, which is consistent with the 4.27% real return capital market outlook model developed during 2020 by the outside investment consultant to the Florida State Board of Administration; 2) a long-term average annual inflation assumption of 2.4% as most recently adopted in October 2020 by the FRS Actuarial Assumption Conference. The table below contains a summary of Milliman's in-house assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the 2.40% inflation assumption adopted by the conference. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

			Compound	
		Annual	annual	
	Policy	arithmetic	(geometric)	Standard
Asset Class	allocation	return	return	deviation
Cash equivalents	1.0%	2.2%	2.2%	1.2%
Fixed income	19.0%	3.0%	2.9%	3.5%
Global equity	54.2%	8.0%	6.7%	17.1%
Real estate (property)	10.3%	6.4%	5.8%	11.7%
Private equity	11.1%	10.8%	8.1%	25.7%
Strategic investments	4.4%	5.5%	5.3%	6.9%
Total	100%			
Assumed inflation - mean			2.4%	1.7%

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### The Florida Retirement System Pension Plan (continued)

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 6.80%. The FRS Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees if future experience follows assumptions and the Actuarially Determined Contribution (ADC) is contributed in full each year. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

# <u>Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes</u> in the Discount Rate:

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.80%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.80%) or 1 percentage-point higher (7.80%) than the current

	19	% Decrease	C	Current rate	1	l% Increase	
		5.80%		6.80%	7.80%		
Net Pension Liability - FRS	\$	25.748.600	\$	16.124.804	\$	8.086.965	

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Annual Comprehensive Financial Report.

## The Retiree Health Insurance Subsidy Program (HIS)

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple employer defined benefit pension plan which was established and administered in accordance with Section 112.363, Florida Statutes. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS program. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u>. For the Authority's fiscal year ended September 30, 2020, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum HIS payment is \$30 and the maximum HIS payment is \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive HIS Plan benefits, a retiree under a State administered retirement system must provide proof of health insurance coverage, which may include Medicare.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### The Retiree Health Insurance Subsidy Program (HIS) (continued)

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for specified employees. For the fiscal year ended September 30, 2020, the contribution rate was 1.66% of payroll pursuant to section 112.363, Florida Statutes. The Authority contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, the legislation may reduce or cancel HIS payments.

The Authority's contributions to the HIS Plan were \$302,763 for the year ended September 30, 2020 which was equal to the required contributions.

#### Pension Liabilities, Expense, and Deferred Items Related to Pensions:

At September 30, 2020, the Authority reported a net pension liability of \$6,368,306 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined based on the actuarial valuation as of July 1, 2020. The Authority's proportionate share of the net pension liability was based on the Authority's 2019-20 fiscal year contributions relative to the total 2019-20 fiscal year contributions of all participating members. At June 30, 2020, the Authority's proportionate share was .05216%, which was an increase of .00197% from its proportionate share measured as of June 30, 2019.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# **NOTE K - EMPLOYEE BENEFITS (continued)**

# The Retiree Health Insurance Subsidy Program (HIS) (continued)

#### Pension Liabilities, Expense, and Deferred Items Related to Pensions (continued):

For the Authority's fiscal year ended September 30, 2020, the Authority recognized the HIS Plan pension expense of \$446,353. In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following resources:

		Deferred		Deferred
	(	outflow of		inflow of
Description	r	esources	r	esources
Difference between expected and actual experience	\$	260,502	\$	4,913
Change of assumptions		684,774		370,292
Net difference between projected and actual earnings				
on HIS pension plan investments		5,085		-
Change in proportion and differences between Authority				
HIS contributions and proportional share of contributions		683,456		3,046
Authority HIS contributions subsequent to the measurement				
date		70,736		
	\$	1,704,553	\$	378,251

The deferred outflows of resources related to pensions, totaling \$70,736 for 2020 resulting from Authority contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred
Years ending	outflows/
September 30:	_(Inflows), net
2021	\$ 280,311
2022	249,677
2023	186,469
2024	172,943
2025	149,980
Thereafter	216,186

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### The Retiree Health Insurance Subsidy Program (HIS) (continued)

<u>Actuarial Assumptions</u>. The total pension liability as of June 30, 2020 measurement date was determined using the following actuarial assumptions which were based on the certain results of an actuarial experience study of the FRS Pension Plan completed in 2019 for the period July 1, 2013 - June 30, 2018:

Inflation 2.40%

Salary increases 3.25%, average, including inflation

Municipal bond rate 2.21%

Mortality assumptions were based on the PUB-2010 base table, projected generationally with Scale MP-2018. Additional details are provided in the actuarial valuation report.

<u>Discount Rate</u>: The municipal bond rate used to measure the total pension liability relating to the HIS Plan was 2.21% for 2020. In general, the discount rate for calculating the total pension liability under GASB 67 is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

# <u>Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes</u> in the Discount Rate:

The following presents the Authority's proportionate share of the net pension liability, for the HIS Plan, calculated using the discount rate of 2.21%, as well as what the Authority's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1 percentage-point lower (1.21%) or 1 percentage-point higher (3.21%) than the current rate:

	1%	6 Decrease	С	urrent rate	19	% Increase
		1.21%	2.21%			3.21%

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### Pension plans of Jax Transit Management Corp. (JTM)

JTM (a component unit) makes contributions to a multi-employer defined benefit pension plan for the JTM employees (mechanics) represented by the International Association of Machinists union. JTM also maintains two single-employer defined benefit pension plans, which cover general (salaried) employees and bus operators (drivers) for the Authority's proprietary activities.

# International Association of Machinists (IAM) Pension Plan

Mechanics and other technicians whose job classification is within the bargaining unit represented by the International Association of Machinists ("IAM") union participate in the IAM defined benefit pension plan, a cost-sharing multiple-employer retirement plan administered by the union to provide retirement and survivor benefits to participating employees. As of September 30, 2020, 149 of the Authority's employees were covered under this plan. The plan documents for the IAM National Pension Fund establish the authority for participant eligibility, contribution requirements, vesting eligibility and benefit provisions. The plan issues an available financial report which may be obtained by writing to IAM National Pension Fund at 99 M Street, SE, Suite 600, Washington, D.C 20003.

Benefits are determined by category and length of service as follows:

Membership Category	Retirement Benefit	Vestina	Employer Contribution	Employer Contribution	Employer Contribution	Employer Contribution rate
Regular	Benefit calculated based upon the participants age of retirement, the participants amount of credited service, the contribution rates paid by contributing employer on the participants behalf, and the form of payment chosen by the participant at retirement.	After 5 years of vesting service or five years of future	\$3.90 per hour	\$3.90 per hour	\$3.90 per hour	\$3.90 per hour

January 1, 2020 January 1, 2019 January 1, 2018 January 1, 2017

Participating employer contributions are based upon the collective bargaining agreement for mechanics and utility employees in effect through December 1, 2022 that, expressed as an hourly rate, are adequate to accumulate sufficient assets to pay benefits when due. No employee contributions are required.

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

#### **NOTE K - EMPLOYEE BENEFITS (continued)**

#### International Association of Machinists (IAM) Pension Plan (continued)

The payments made to the IAM plan in the years ended September 30, 2020, 2019, 2018, 2017 and 2016 were \$1,143,954, \$1,148,965, \$1,156,396, \$1,147,357, and \$1,055,119, respectively, which were equal to the required contributions for each year.

# Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp.

Salaried Plan description: The Authority contributes to the Jax Transit Management Corp. (JTM) Retirement Plan for Salaried Employees, a single-employer defined benefit plan which covers all salaried employees on JTM's payroll whose job classifications are not represented by unions. The Salaried Employees plan was established by JTM on January 1, 1963. The Authority has fiduciary responsibility for the plan assets of the Salaried plan, thus the net position of this plan is reported as a pension trust fund. A committee comprised of three JTM employees and three employees of the Authority administer the Salaried Employees Plan.

**Drivers Plan description:** The Authority also contributes to the Amalgamated Jax Transit Management, Corp. Pension Plan, a single-employer defined benefit plan which covers all full and part-time bus operators on JTM's payroll whose job classification is within the bargaining unit represented by the Amalgamated Transit Union Local 1197. The Drivers Plan was established on May 1, 1964 by JTM. The plan is administered by a six-member Board of Control. The Authority has no fiduciary responsibility for the plan assets of the Drivers plan, thus the net position of this plan is not reported as a pension trust fund. The plan issues an available financial report which may be obtained by writing or calling the plan administrator, Reliance Trust at 1000 Abernathy Rd. NE, Suite 400, Atlanta GA 30328-5634 or (800) 749-0752.

As of December 31, 2019, employee membership data related to both of these plans was as follows:

	Salaried	Drivers
	Employees	Plan
Active employees:

# Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp. (continued)

The Salaried Plan's funding policy provides for annual employer contributions based on funding requirements from section 412 and 430 of the Internal Revenue Code (IRC). Specifically, an actuarial valuation is done under ERISA to measure the unfunded liability (or surplus) at the end of the plan year and the Minimum Required Contribution (MRC) is determined. This MRC is the minimum amount that the sponsor needs to contribute during the plan year that is sufficient to accumulate sufficient assets to pay benefits when due. Significant actuarial assumptions used to compute contribution requirements are based on the requirements of the IRC and it changes every year. Employees contribute 3% to the salaried plan as well.

The Driver Plan's funding policy provides for annual employer contributions based on funding requirements from section 412 and 430 of the Internal Revenue Code (IRC). Specifically, an actuarial valuation is done under ERISA to measure the unfunded liability (or surplus) at the beginning of the plan year and the Minimum Required Contribution (MRC) is determined. This MRC is the minimum amount that the sponsor needs to contribute during the plan year that is sufficient to accumulate sufficient assets to pay benefits when due. Significant actuarial assumptions used to compute contribution requirements are based on the requirements of the IRC and it changes every year. In addition, there is also employee contributions upon the ratification of the agreement dated November 6, 2017. New hires contribute 3% of their hourly wages to their pension as employee contribution. New hires were eligible to participate starting in July 2018.

## <u>Investments - Salaried Employee Plan</u>

A committee comprised of three JTM employees and three Authority employees administers the Salaried Employee Plan. The committee has the authority to establish and amend the investment policy including decisions regarding asset allocation. It is the policy of the committee to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the committee's adopted asset allocation policy as of September 30, 2020:

Asset Class	Target allocation
Bond mutual funds	41%
Real assets	7%
Equities	52%
	100%

The expected return on investments is determined from a building block approach that includes components for inflation, real risk-free return, and risk premium. It is calculated by summing the weighted average of the total return for each asset class.

# Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp. (continued)

The deferred outflows of resources related to pensions, totaling \$123,049 for 2020 resulting from Authority contributions to the Salaried Employee Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred
Years ending	outflow/
September 30:	(inflow), net
2021	\$ (155,766)
2022	(25,866)
2023	(17,380)
2024	(3,017)
2025	-
Thereafter	-

#### Drivers Plan

The Jax Transit Management Corp. ("Drivers Plan") funding policy provides for periodic employer contributions at contractually negotiated rates that, expressed as an hourly rate, are sufficient to accumulate sufficient assets to pay benefits when due. Significant actuarial assumptions used to compute contribution requirements are the same as those used to compute the pension benefit obligation described above.

#### Investments - Drivers Plan

The Drivers Plan is administered by a six-member Board of Control. The Board has the authority to establish and amend investment policy including decisions regarding asset allocation. It is the policy of the Board to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the Board's adopted asset allocation policy as of September 30, 2020:

	Target
Asset class	allocation
Domestic equities	43%
International equities	7%
Fixed income	30%
Hedged strategies	15%
Real estate	5%
	100%

## NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# **NOTE K - EMPLOYEE BENEFITS (continued)**

# Defined Benefit Pension Plans Sponsored by Jax Transit Management Corp. (continued)

## Investments - Drivers Plan (continued)

The long-term expected rate of return on plan investments is developed for each major asset class by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2020, are summarized in the following table:

	Long-term expected
Asset Class	real rate of return
Domestic equities	4.1%
International equities	4.3%
Fixed income	1.0%
Hedged strategies	4.5%
Real estate	5.5%

#### NOTES TO FINANCIAL STATEMENTS

## For the year ended September 30, 2020

#### NOTE L - OTHER POST-EMPLOYMENT BENEFITS

Pursuant to Section 112.081, Florida Statutes, the Authority is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. This results in an implicit subsidy to retirees.

**Plan description:** The Authority's OPEB Plan is a single employer defined benefit healthcare (medical and dental) plan which offers health insurance for retired employees. The published insurance rates are based primarily on the healthcare usage of active employees. Retirees pay 100 percent of the published rates. Since retirees use healthcare at a rate much higher than active employees, using these blended rates creates an implicit subsidy for the retiree group. Employees who terminate their employment prior to retirement eligibility are not eligible to participate in the plan. Dependents, including surviving spouses, are permitted access to the plan.

**Funding policy:** The Board is authorized to establish benefit levels, subject to the minimum requirements set forth by Florida Statutes, and to approve the actuarial assumptions used in the determination of contribution levels. The Board establishes the contribution requirements of plan members and the Authority. These contributions are neither mandated nor guaranteed. The retiree pays the full cost of the premium each month for themselves, spouses and other dependents who are also eligible for coverage. The Authority does not subsidize any member premiums. The Authority has not set up a trust to prefund benefits. Benefits are funded on a pay-as-you-go basis.

Benefits for employees of JTM subject to union negotiations do not currently include any health benefits after retirement and are not considered by this Plan.

As of September 30, 2020, employee membership data related to the Plan was as Current retirees

Under age 65

Over age 65

#### NOTES TO FINANCIAL STATEMENTS

For the year ended September 30, 2020

# NOTE L - OTHER POST-EMPLOYMENT BENEFITS (continued)

# **OPEB Liability**

The total OPEB liability of \$192,360 is based on October 1, 2019 valuation data.

# Actuarial assumptions, methods and valuation

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Although the valuation results are based on values the actuarial consultant believes are reasonable assumptions, the valuation result is only an estimate of what future costs may actually be and reflect a long-term perspective. Deviations in any of several factors, such as future interest rate discounts, medical cost inflation, Medicare coverage risk and changes in marital status could result in actual costs being greater or less than estimated.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

If necessary, liabilities are rolled forward from the actuarial valuation date to the measurement date through use of a roll forward method. Liabilities are adjusted for the passage of time by adding normal costs minus benefit payments, all adjusted with interest.

Actual coverage status is used; females assumed 3 years younger than male spouse.

All employees not participating in coverage currently are assumed to not elect to participate in the future.

35% of employees with coverage are assumed to elect to continue coverage upon retirement. 35% of those currently enrolled with spouse/family coverage will continue the same coverage upon retirement.

# **NOTE N - ACCOUNTING STANDARDS**

In June 2017, the GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting. This statement is effective for the Authority's September 30, 2022 fiscal year end. Management is currently evaluating the impact of the adoption of this statement on the Authority's financial statements.

#### **NOTE O - POLLUTION REMEDIATION**

The Authority has a pollution remediation event for the required regulatory assessments and monitoring for a site. Based on the uncertainty of the amount of the remediation and any offsetting insurance or City reimbursement, the associated costs have not been accrued for and reflected in the accompanying financial statements.

#### **NOTE P - SUBSEQUENT EVENT**

The Authority has evaluated subsequent events through April 29, 2021; the date on which the financial statements were available for issuance and has noted the following subsequent event.

During April 2021 the Authority was approved for the Coronavirus Response and Relief Supplemental Appropriations Act ("CRSSAA") for a total awarded amount of \$33,706,928, of which \$15,264,081 was for payroll expenditures during the last quarter of the Authority's September 30, 2020 year end. These amounts are included in the Authority's statements as of September 30, 2020.

#### NOTE TO BUDGETARY COMPARISON SCHEDULE

For the year ended September 30, 2020

#### **NOTE A - BUDGET AND BUDGETARY ACCOUNTING**

The Authority prepares an annual budget for its General Fund. The Custodial Project Special Revenue Fund adopts project-length budgets rather than annual budgets. Accordingly, a budget and actual schedule is not presented for this fund. The Authority is authorized to transfer appropriated funds, from one of the purposes for which funds are appropriated, to another, if, in the discretion of the Authority, such transfer is necessary to carry out all of the purposes for which funds are appropriated, subject to applicable law. Thus, the legal level of budgetary control is at the fund level. All budgets are adopted in accordance with accounting principles generally accepted in the United States. Encumbrances outstanding at year-end for unfilled obligations are canceled and reappropriated in the succeeding year's budget. Such amounts, if material, are disclosed in the notes to financial statements under "Commitments and Contingencies." In addition, the Authority is not legally required to establish a budget for proprietary funds.

The General fund reported actual revenues exceeding budgeted revenues in the amount of \$290,742. The difference is attributable to favorable returns as compared to budget in Investment earnings of \$244,095, as well as \$46,647 of additional rents from Clear Channel and purchasing card rebates that were not included in the budget.

The General fund reported \$10,099,500 from the sale of surplus property per the Authority's reserve policy. There was also (\$350,446) transferred to the debt service fund to cover principal and interest payments for the Authority's Acosta Bridge Loan. These items were not included in the budget.

The General fund reported lower expenditures than budget appropriations in the amount of \$153,163. This was mainly due to savings achieved in Labor Costs, including Temporary Help, Utilities/Postage, and Repairs and Maintenance. Overall, the general fund reported a positive increase in fund balances of \$17,458,159.

# NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

# For the year ended September 30, 2020

#### **NOTE A - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (the "Schedule") includes the federal and state grant activity of the Jacksonville Transportation Authority (the "Authority"). The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance") and Chapter 10.550, Rules of the Auditor General. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the presentation of the basic financial statements. Because the schedule presents only a select portion of the operations of the Authority, it is not intended to and does not present the financial position, change in net position or cash flows of the Authority.

# NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures recognized in this schedule are reported on the accrual basis of accounting for the proprietary funds and on the modified accrual basis of accounting for the governmental funds, which are described in Note B to the Authority's financial statements. Such expenditures are reported following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

# NOTE C - INDIRECT COST RATE

The Authority did not elect to use the 10-percent de minimis indirect cost rate.

#### **NOTE D - LOAN GUARANTEES**

At September 30, 2020, the Authority is not the guarantor of any loans outstanding other than those disclosed in the basic financial statements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority"), a component unit of the City of Jacksonville, Florida, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated April 29, 2021.

# **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

April 29, 2021 Melbourne, Florida Berman Hopkins Wright & LaHam CPAs and Associates, LLP

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

# Report on Compliance for Each Major Federal Program and State Project

We have audited the Jacksonville Transportation Authority's (the "Authority") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the *Department of Financial Services' State Projects Compliance Supplement* that could have a direct and material effect on the Authority's major Federal programs and State projects for the year ended September 30, 2020. The Authority's major Federal programs and State projects are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

# Management's Responsibility

Management is responsible for compliance with Federal and State statutes, regulations and the terms and conditions of its Federal awards and State projects applicable to its Federal programs and State projects.

# **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the Authority's major Federal programs and State projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of the Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and Chapter 10.550, Rules of the Auditor General. Those standards, the Uniform Guidance and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program or State project occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each of the major Federal programs and State projects. However, our audit does not provide a legal determination of the Authority's compliance.

# Opinion on each of the Major Federal Programs and State Projects

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs and State projects for the year ended September 30, 2020.

# **Report on Internal Control Over Compliance**

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each of its major Federal programs or State projects to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each of its major Federal programs and State projects and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program or State project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program or State project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

# MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550 OF THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board Members
Jacksonville Transportation
Authority Jacksonville, Florida

# **Report on the Financial Statements**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jacksonville Transportation Authority (the "Authority") as of and for the year ended September 30, 2020, and have issued our report thereon dated April 29, 2021.

# **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

# **Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements performed in accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards, AT-C* Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General.* Disclosures in those reports and schedule, which are dated April xx, 2021, should be considered in conjunction with this management letter.

# **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and associated recommendations made in the preceding financial audit report. There were no findings in the preceding financial audit report.

# Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in Note A in the notes to the financial statements.

# **Financial Condition and Management**

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Authority has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Authority did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Authority's financial condition, and our financial condition assessment was based in part on representations made by management and the review of the financial information provided by the same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we noted the following item to help improve on financial reporting;

1. We recommend that the Authority maximize the general ledger with the utilization of funds to maintain the full accrual financial items, such as, long term liabilities and capital asset activity.

# **Special District Component Units**

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

#### **Additional Matters**

Section 10.804(1)(f)4., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings

#### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board Members and applicable management of the Authority, and is not intended to be and should not be used by anyone other than these specified parties.

April 29, 2021 Melbourne, Florida Berman Hopkins Wright & LaHam CPAs and Associates, LLP

# INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415

To the Board Members
Jacksonville Transportation Authority
Jacksonville, Florida

We have examined the Jacksonville Transportation Authority's (the "Authority") compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020. Management of the Authority is responsible for the Authority's compliance with the specified requirements. Our responsibility is to express an opinion on the Authority's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Authority complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Authority's compliance with specified requirements.

In our opinion, the Authority complied, in all material respects, with Section 218.415, Florida Statutes, during the year ended September 30, 2020.
